

## AIS Policy 2016-2017 School Year

Due to the limited number of students that took the 3-8 ELA and math state assessments, we will be using multiple measures for determining which students shall receive AIS.

### K-2<sup>nd</sup> grade level

benchmark and lesson-embedded assessments for reading and math

### 3rd-8th grade level

scoring below a Level 2 on the NYS Assessment for ELA or math

scoring below benchmark on the STAR Assessment

### 9<sup>th</sup>-12<sup>th</sup> grade level

scoring below passing on a NYS Regents Exam

scoring below benchmark on the STAR Assessment

Students that are struggling academically but do not qualify for AIS based on the above cut scores will be referred to the Child Study Team and further assessments will be administered and reviewed by the Team and eligibility determined.
